

Meet Ruth, who came to us from St. Joseph London Hospital after a total knee replacement. She needed a place to heal, as well as, a place to receive physical and occupational therapy tailored for her specifically for her needs. After working closely with our therapy team on individualized goals, Ruth is ready to return home. She is most excited about being self sufficient and back home near her family in London. " I was told If I worked hard I would be home soon and they were right!" We knew you could do it! Thanks Ruth for choosing Cumberland for your therapy needs!
