

Meet William A.

If you or a friend find yourself in need of in-patient/out-patient rehabilitation therapies, please call our admissions department today!

William A. was admitted to Cumberland Nursing and Rehab from our local hospice unit. Upon admission he was too weak to walk, let alone get out of his recliner, and feared he would never make it home again.

William had the desire to improve his strength and help care for himself. After 3.5 months of therapy, he is doing just that! William is up walking around and making plans to get a place of his own!

He gives special thanks to his nurse, Gina Dockery, LPN for helping him settle in at the facility and to feel like he was part of the family. When the world starts to open back up, we will wish William a fond farewell in hopes he will visit us often!
